Traveling in Nunavut:

Traveling in Nunavut can be one of your life time adventures. Scenery, people and wildlife are only few of a million things giving such a unique taste to the Canadian arctic. But traveling in Nunavut, also mean, traveling following permitting weather, and so, bad weather cancellations are not impossible. Also, “out of our control” situation can happen even with the best preparation. Replacement pieces for aircrafts and specialised workers to fix engines often need to be brought from South and are not always available the next morning.

To enjoy your next experience up North it is important to be ready to face those situations and to be ready to play with your schedule. Following those comments, we highly recommend that everybody traveling to the Arctic take few days off at the end of their trip to accommodate delay, with a smile.
